

Kiwa Product Compliance Global Market Access Partner for Radio, Telecom and ITE

Established in 2004, we specialise in all Wireless, Telecom and ITE devices, as well as electrical and electronic domestic and commercial use products.

At Kiwa Product Compliance we pride ourselves on delivering excellent customer service and true regulatory expertise in the Global Market Access arena. Established in 2004, we specialise in the Global Market Access of all Wireless, Telecom and ITE devices, and electrical and electronic domestic and commercial use products.

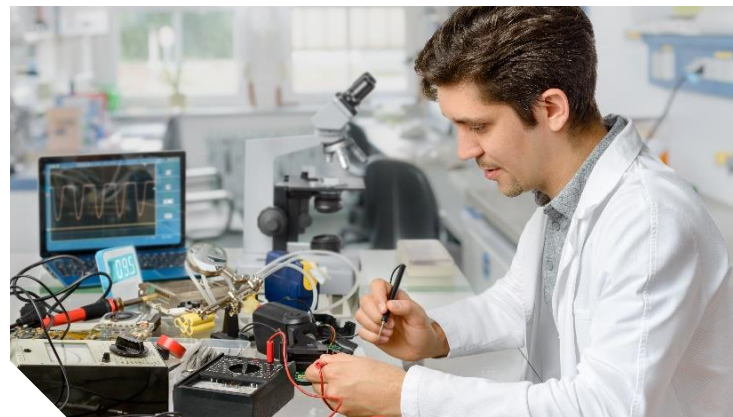

As well as being a Global Market Access partner for EU and FCC testing & certification and International Type Approval in over 220 countries and territories, we deliver a comprehensive suite of regulatory services including tailored regulatory research, bespoke intelligence gathering, certification management and highly valued regulatory compliance consulting, in order to ensure manufacturers have confidence and peace of mind bringing their products to market.

CONSULTING SERVICES

Global Market Access

Our sought-after service offerings have been honed and developed from years of experience in successfully delivering our core business purpose - International Type Approval of Wireless, Telecom and ITE products.

Supporting a wide range of industries, product types and compliance schemes, Kiwa Product Compliance, through its

specialist team of regulatory experts, has grown to become a trusted and knowledgeable partner in the GMA arena.

Our professional and experienced team are focused on regulatory compliance research and Type Approval, allowing us to remain completely abreast of all regulatory developments, and enables us to anticipate and promptly address any potential roadblocks or risks to our client's project schedules.

Kiwa Product Compliance are well versed with country regulations, including local and complex testing standards and requirements.

Our multi-lingual, multi-cultural team, with over 15 individual languages spoken, mitigate any potential communication barriers, as well as giving an extra level of contextual understanding to regulations, that ultimately reduces risk and increases the speed at which your products can get to market.

With growing teams in the US, Europe and China and our network of partners across the globe, our team of Regulatory Approval experts offer a round-the-clock service to all of our customers. We have a proven track record in project delivery, excellent lead-times, cost efficiency, clear project visibility, and reliable and dedicated support for our customers.

Our aim is to ensure that your Global Market Access process is smooth and hassle-free.

Research & Regulatory Intelligence

Keeping up to date with regulatory news and developments is a challenging and time-consuming task. Kiwa Product Compliance is committed to the importance and delivery of such tasks, and we can offer manufacturers a universal or bespoke solution for any research request.

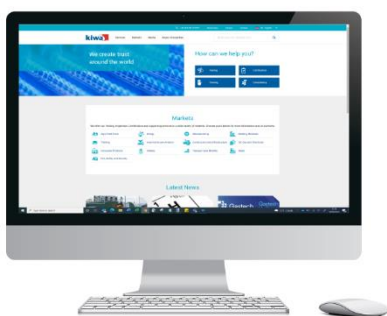

Pre-regulatory Consultancy

We offer our customers a bespoke, pre-regulatory consultancy service, tailored specifically to your product, your business, and your budget. With complete flexibility in terms of level of detail and support, we provide the package that's right for you.

KPC Client Portal

Our secure and easy to use customer portal is a powerful and highly valued tool, providing 24/7 access to a central platform, that has been specifically designed to ensure quick and reliable data sharing for Kiwa Product Compliance clients. This online application forms part of our unique service offering and ongoing mission to work in close partnership with you, our customers.
